Quick Facts of SUMS

Founded in

From the Lake Country to the World

Half a century with local medicine and beyond

(May 2024)

The 50th anniversary has renewed our sense of gratitude to all the stakeholders who have continued your involvement in SUMS. With this in mind, we intend to move forward into the next 50 years. Thank you for your continued support of SUMS.

Faculty and Staff

(May 2024)

(Percentage of females)

All Faculty and Staff

Faculty members 4

The ratio of female faculty members at national universities has been increasing slightly each year. The ratio at SUMS is slightly higher than that of national medical universities as a whole (26.4%, The MEXT School Basic Survey 2024). SUMS is promoting the creation of an environment in which both genders can play an active role.

Number of Students Male Female

Undergraduate 9] School of Medicine 674

School of Nursing 240

Regional quota for 1-year students School of Medicine 16.8% School of Nursing 16.7%

Graduate Graduate School of Medicine, Doctoral Program (Medical Science) 166 Graduate School of Medicine, Doctoral Program (Medical Science) 42 International Students 16.0% Adult Graduate Students 68.9%

Male-to-Female Ratio 54.3%

Student-to-Faculty Ratio

Undergraduate students National University Average ST Ratio

1:9.2

SUMS has more faculty members than the national average for the number of students (9.2), which enables us to provide generous support in regard to teaching and research (General Survey of Schools by MEXT, 2024). At SUMS, we strive to provide each and every student with careful and warm guidance.

(AY2023) Career Paths of Alumni in Shiga

School of Medicine

Percentage of enrolled students from Shiga

AY2018 **10.**4%

School of Nursing

Percentage of enrolled

students from Shiga 4% AY2020 5

The percentage of graduates from the School of Nursing in AY 2023 who found employment in Shiga Prefecture was higher than usual. This may be because the percentage of students from Shiga Prefecture at the time of enrollment was slightly higher than usual. As for the School of Medicine, compared to the percentage of students who were from Shiga Prefecture at the time of admission, the percentage of students employed, etc. in Shiga Prefecture has increased significantly. Regardless of whether they are from Shiga Prefecture or not, the fact that many graduates are working in Shiga Prefecture is boosting our "contribution to the local community."

External Funds Received

FY2023

Commissioned research

Joint research with private companies Grants-in-Aid for Scientific Research

Donations

Other competitive external funds

Obtaining external funds is important for the development of research. SUMS is not only promoting research, but also conducting research activities and providing research support on a daily basis to link our research to social implementation.

Ranked 20th in Research Funds Received per joint research with private companies (University Fact Book 2024, Japan **Business Federation)** (See also page 35)

See website of IR office.

Adoption Rate of Grants-in-Aid for Scientific Research (KAKENHI) FY2023

31.3%

National Average

27.5%

We support young researchers

SUMS has a high adoption rate for "Grant-in-Aid for Early-Career Scientists (39.2%)" and "Grant-in-Aid for Research Activity Start-ups (80.0%)". We encourage young researchers to apply for the grants in the spirit of "No Application, No Adoption".

Patent Licensing Rate

University Fact Book 2024 (Japan Business Federation)

Ranked

49.6%

Although the number of patents held by SUMS is small compared to that of comprehensive universities, the licensing rate is high, and we are returning the results of our research to society.
